Executive Summary

PANCAIM website https://pancaim.eu/ has been set up in order to increase public awareness of PANCAIM project. Provisional webpage with basic information on the project (i.e. project facts, the publishable abstract, list of partners and contacts) has been operational since January 2021. The whole content of the webpage is public and complete project information is on-line since the end of March 2021. The PANCAIM website will be actively maintained and updated during the whole course of the project.

Table of Contents

1. Introduction

D6.2 Project webpage is the deliverable associated with task T6.1 Dissemination and communication activities. The objective of this task is to ensure that the results of the project will be disseminated to the European research, industrial and public communities. It ensures an on-going communication between the general public, experts, technicians etc. on one side and partners of the project on the other.

The task also describes creation of a comprehensive dedicated website for the project. This was be established at the beginning of the project and set up for public access. The website will be actively maintained during the project period.

The PANCAIM website has been operational since January 2021 in a provisional version and from end of March 2021 in a full version.

1. Introduction

2. PANCAIM website

The domain https://pancaim.eu/ has been procured for use by project PANCAIM. The website has been created in an Open Source software called WordPress. WordPress started as a blogging system but has evolved to be used as a full content management system that is completely customisable and can be used for almost anything within the field of web design. It allows fast and reliable customisation and has a user-friendly back-office environment which will simplify the requirement for regular updates and file uploads.

Figure 2: PANCAIM homepage

All individual pages of the PANCAIM website include a header with the project logo and a navigation menu allowing for quick access to any part of the website, as well as a footer with the acknowledgment text "*This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101016851, project PANCAIM.*" and the EU flag.
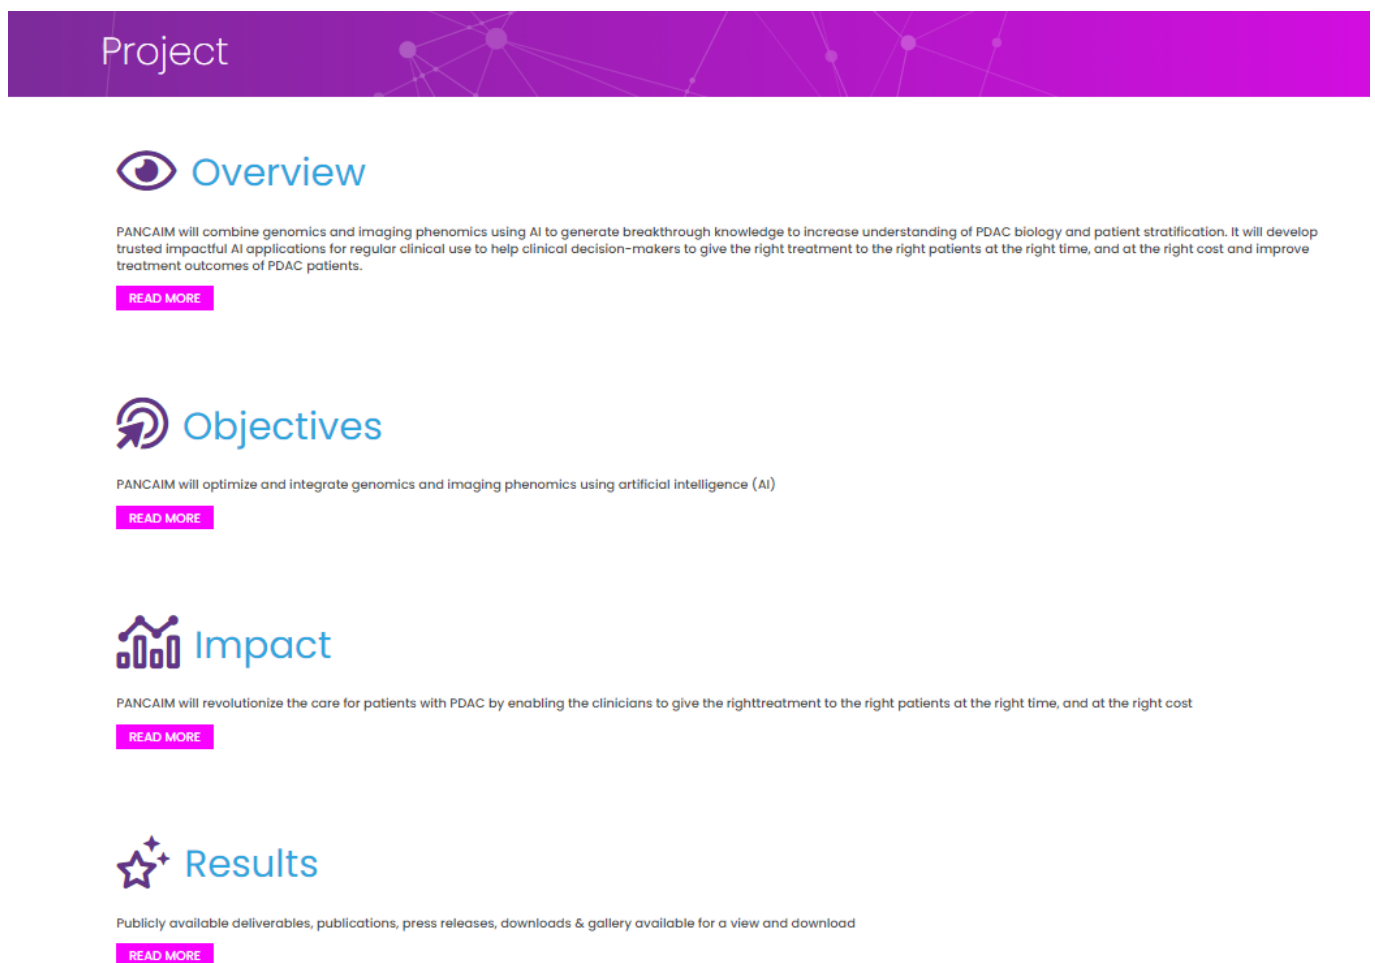

The content of PANCAIM home page is divided in several frames:
- project logo and navigation menu with titles of the pages;
- frame with project's acronym;
- heading with the short description of the project;
- frame with infographic of the project concept;
- frame with information about the project (overview, objectives, impact, results);
- frame with information about the consortium partners (with links to description of the partners, their roles in PANCAIM, and key staff);
- frame introducing the news & events;
- frame with project contacts including contacts of Project Coordinator and Project Manager;
- link on twitter account;
- a footnote providing acknowledgment of EU funding and an illustration of the EU flag.

The content of the individual sections of the Navigation menu is described in the following chapters.

2.1.   Project

Frame *PROJECT* gives an access to the key information about the project including its overview, main objectives, impact and results.

Figure 3: PANCAIM about the project section and its subchapters

2.2.   Consortium partners

The PANCAIM consortium consists of 9 partners with complementary backgrounds that will help to achieve challenging goals of the project. The name of each partner incl. its logo and link to its organization description, role in PANCAIM description and bios of key staff is included in the *CONSORTIUM PARTNERS* frame.

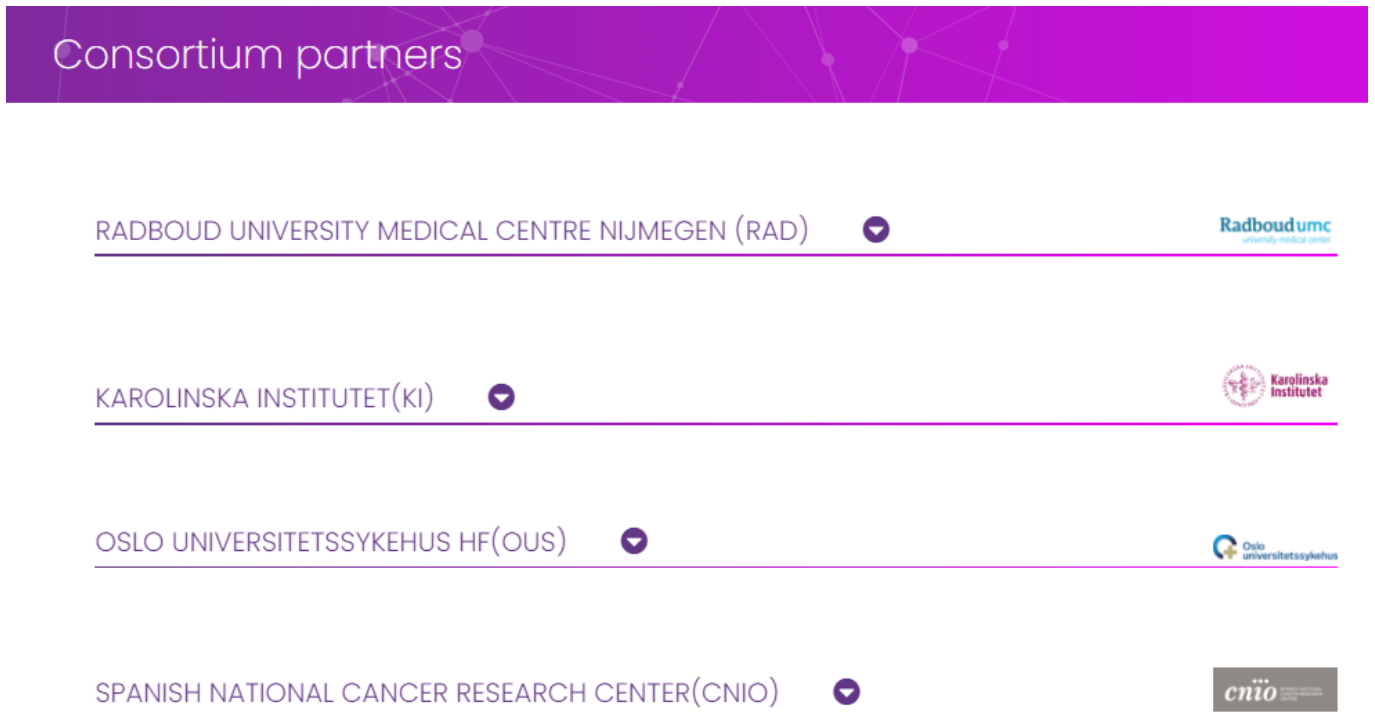

Figure 4: Partners' section

2.3.   News & Events

The frame *NEWS & EVENTS* contains details of dissemination activities, press releases, publications and events as well as announcements of PANCAIM meetings and other initiatives able to promote the project at wide level. The section already contains news about the project kick-off meeting and the first press release.

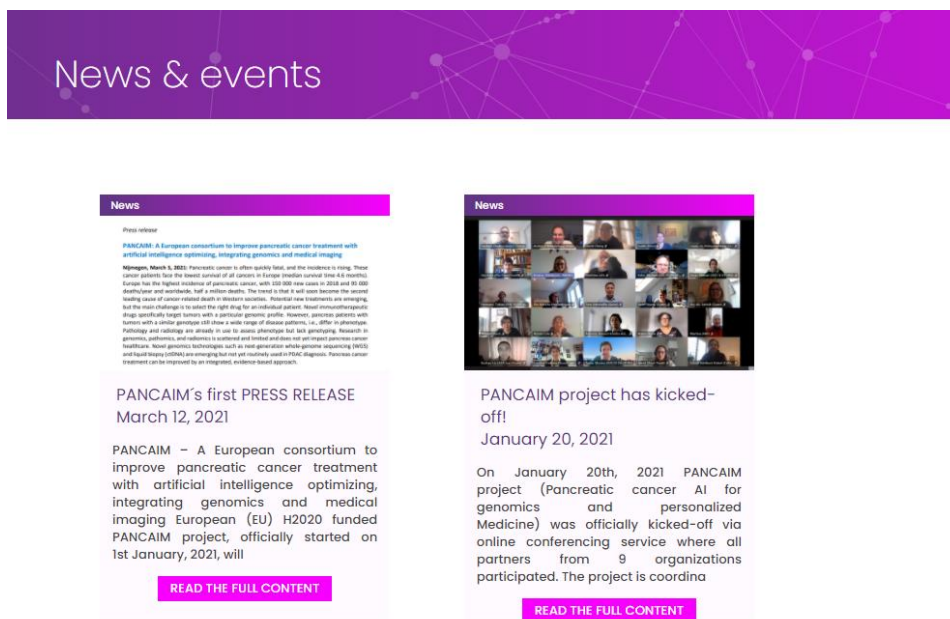

Figure 5: PANCAIM first news

2.4.   Contact

The *CONTACT* frame provides direct contacts of the PANCAIM Project Coordinator and Project Manager. It also contains the form to be filled in to get more information on PANCAIM project.

3. Further development of the PANCAIM website

Additional information will be published throughout the lifetime of the project, in particular related to RESULTS as the first results of PANCAIM technologies validation will be made available.

Beyond the periodic updates and publication of results two other activities need to run in parallel. Firstly, constant security checking and control is needed to protect all sensitive data uploaded onto the server of the Czech provider Active24 (http://www.active24.cz). This will be assured by generation of secure login details and by continuous adaptation of plugins and add-ons in order to avoid any sensitive data leakage. Special attention will be given to random search engines crawlers, which download any accessible documents and retain them for long periods in their cache system (even erased documents). This activity will last for the project duration and beyond. Secondly, further optimisation of the website will ensure its positioning among first search results for relevant keywords.

4. Conclusions

The PANCAIM project website https://pancaim.eu/ meets the requirements which were set for the website in the respective task T6.1 Dissemination and communication activities. The project website has been set up to increase public awareness of PANCAIM and to disseminate the project's results. Basic information on the project can be found on the webpage as well as public deliverables and project outcomes and publications.

5. Degree of Progress

The deliverable is 100% fulfilled. The maintenance of the website will be carried out during the whole course of the project.

6. Dissemination Level

The Deliverable D6.2 is public and therefore it will be available to download on the project's website.
